- Bangla

Professional Experience

2025 – 2024

Junior Software Engineer

Jessore Sadar, Jessore, Bangladesh | Codevioso

- Developed and maintained web applications using Laravel for backend APIs and Vue.js, React.js for dynamic front-end interfaces.
- Implemented Vuex for centralized state management, ensuring consistent data handling across components.
- Integrated RESTful APIs and optimized database queries using Eloquent ORM to improve application performance.
- Built reusable components and implemented responsive UI designs with Tailwind CSS / Bootstrap.
- Collaborated with designers and senior developers through Git and GitHub/GitLab for version control and code reviews.
- Wrote clean, maintainable, and well-documented code following best practices and PSR standards.
- Participated in agile development processes, including sprint planning, daily stand-ups, and retrospective meetings.
- Performed debugging, testing, and optimization to enhance user experience and application stability.

2024 – 2023

Junior Frontend Developer

Jessore Sadar, Jessore, Bangladesh | Redishketch

- Developed responsive, user-friendly interfaces using HTML5, CSS3, JavaScript, Vue.js and reactjs.
- Managed application state with Vuex, ensuring smooth data flow and consistency across components.
- Collaborated with backend developers to integrate RESTful APIs and enhance data-driven functionality.
- Optimized web applications for performance, accessibility, and cross-browser compatibility.
- Created reusable UI components and layouts to improve development speed and maintainability.
- Utilized Git for version control, managing branches, merges, and pull requests.
- Worked closely with designers to translate Figma/Adobe XD mockups into interactive web pages.
- Participated in code reviews, debugging, and testing to ensure high-quality deliverables.
